WHO'S WHO IN JAPAN

Entered and published by S. KURITA.

The first (1913) edition already issued.

Biographies of over 5,000 people
who are well-known in society and of
actual business leaders associated with
Japan appear in the book. Quite new
materials and accurate sketches, both being
utterly free from prejudices.

Many portraits are inserted. The book
contains over 1,400 pages.

The price is yen 6 (12/-) or \$3 per copy.
Orders for the book should be accompanied
by payment.

Subscribers for the second annual edition
of 'Who's Who in Japan' will be allowed
a reduction of one yen.

The registered postage is 18 sen, to Korea
and China 40 sen and to Europe & America
70 sen or 35 cents.

It is a GOOD ADVERTISING MEDIUM.
Many industrial papers of the world
noticed this work in the highest terms.

For example, The Daily Mail says:
Yet another 'Who's Who' and this
time from Japan. The reader is apt at
first to regard it as a curiosity, as a sign
that the East has now become Western
practically almost to the last detail. But

'Who's Who in Japan' is far more than
a curiosity; it is a very sound and useful
reference book. It is printed in English
and contains brief biographies, on the
accepted model of prominent men in Japan.

Mr. Kurita is a skilful editor and has done
his work well.

THE BRITISH NAVY.

DEBATE IN THE HOUSE OF LORDS.

LONDON, Aug. 6.
In the House of Lords Lord Salisbury called attention to the naval policy of the Government and entered into an elaborate argument to show that the navy is falling below the sixty per cent standard of superiority laid down by the Government itself. Only the Malay and the New Zealand would be available for the Mediterranean in 1915. He criticised the substitution of oil for coal without careful consideration.

Lord Ashley St. Legers declared that he was unable to accept Lord Salisbury's figures, and claimed that the standard of superiority in Home waters was actually improving. The balance available for Imperial purposes was sufficient for all conceivable circumstances.

Lord Haldane defended the Government's oil policy and said the standard of superiority was being maintained in Home waters. He added that it would not be reasonable or wise to undertake to maintain a fleet in the Mediterranean equal to those of Austria and Italy combined. The burden would be enormous and unjustifiable. It was impossible to provide for every contingency but the grouping of the Powers should be remembered. It should not be forgotten either that the French had a powerful fleet in the Mediterranean. Therefore the situation could not be described as unsatisfactory.

Alluding to Canada Mr. Haldane said it was not for them to speculate upon the course Canada would pursue. Meanwhile the Government had taken the only wise course in accelerating the naval programme. This would give four ships to replace the Canadian ships for the Mediterranean.

GREAT BRITAIN AND BERMUDA.

LONDON, Aug. 5.
The Bermuda report, which the American Press is magnifying into a scare, is apparently based on the despatch of four cruisers to the West Indies, which the Admiralty announced weeks ago.

President Wilson, when interviewed, pointed out that Great Britain always had a naval station at Bermuda, and that she was now only strengthening her ships, and not her fortifications.

London papers state that the cruisers in question return home annually for the manoeuvres.

MEDICAL CONFERENCES IN LONDON.

LONDON, Aug. 5.
Besides the International Congress of Medicine of 5,000 delegates, including the world's most prominent doctors, which Prince Arthur of Connaught opens to-morrow, two other Medical Conferences are meeting in London.

Mr. Asquith yesterday, at Westminster, opened the Tuberculosis Conference of the National Association for the prevention of Consumption.

Mr. John Burns was the chief speaker at the English-speaking Conference on Infant Mortality at Caxton Hall.

Dr. Mackenzie of Brompton Hospital, and Dr. Sims Woodhead and others of Westminster, contended that the parasites of Tuberculosis had not made out their case.

KEEP IT HANDY.

THE CHANNEL TUNNEL PROJECT.

LONDON, Aug. 6.
Mr. Asquith, replying to a Parliamentary Deputation, re-jurging the construction of the Channel Tunnel, said that the Government would approach the matter with an unbiased mind and that it would receive their respectful consideration. The most hopeful of the new factors was the establishment of a solid, unshakable basis in their relations with France.

GREAT BRITAIN AND SAN FRANCISCO EXHIBITION.

LONDON, Aug. 6.
Sir Edward Grey announced in the House of Commons that the Government had decided that they would not be justified in asking the country to spend a quarter of a million sterling to participate in the San Francisco Exhibition, as the commercial centres had not shown any active desire to participate. He emphasized that the decision had no reference to the Panama Canal Tolls. The Government had done nothing to discourage participation by the Dominions or by private individuals.
